

## **A Warm Welcome to Our Students : Message from the Prepsaarthi team**

Hey!

Welcome to Prepsaarthi!

We're glad you've chosen us to accompany you with your IIT JEE journey. Our goal is to be right by your side, providing the guidance and support you need to succeed.

Here's how we'll be accompanying you through your journey :

### **Personalized Mentorship:**

You'll receive a one-on-one guidance from mentors who've successfully navigated the IIT JEE themselves.

Don't worry, this doesn't add one more process to your already busy school-coaching-study schedule, instead, we will help you balance everything to get the most out of everything and make you the smartest working in the room!

### **Getting Started:**

#### **1. Connect with Your Mentor:**

- Your mentor will reach out to you as soon as possible over call or WhatsApp once you register with one.
- Within 24 hours, you'll have a 30-minute meeting to chat about your background, challenges, and where you're at in your preparation.

#### **2. Roadmap and Planning:**

- Within 24 hours of your meeting, your mentor will share a personalized study plan with you.
- This roadmap will outline your study and revision strategy and all other aspects up to the date of your subscription (for example, if you choose a week's plan on 1st of August, your roadmap will contain detailed strategy for up to 8th of August)

### **3. Daily Check-Ins:**

- Expect a quick 10-minute check-in with your mentor each day.
- These sessions will help you stay on track and address any immediate concerns as well as it'll help you as your mentor is more accessible to you.

### **Parental Involvement (Optional):**

- If you think it would help, mentors can brief your parents about your progress, which will help them being involved!
- This option has been set optional as we also did prepare for JEE not that long ago, so we know sometime this can be overwhelming.

### **Making the Most of Your Mentorship:**

- We encourage you to approach your mentor with any problem you might face in your preparations.
- It's our humble advice to make the most out of this mentorship, as it's an investment into your journey and hence, any and every problems should be solved!
- We understand that it's not very comfortable sharing your problems and weakness with the mentors, but instead of seeing them as mentors, consider them your own friendly neighborhood bhaiya / didi who are just there to guide you.

### **Feedback and Support:**

- We're here to make your experience as smooth as possible. If you have any feedback or suggestions, please let us know through the feedback form on your profile.
- You should feel free to submit feedback with us as it's your right to nudge us when we lack.

### **Additional Resources:**

- Your mentor might share extra materials or resources. These are here to help, so take advantage of them!
- These can be YouTube videos of some great teachers, some resources to practice questions or other useful materials.

**Some roles for you!:**

- Review your roadmap regularly and stick to your study plan.
- Keep up with your mentor sessions and stay focused on your goals.
- Never fear the competition, never get overwhelmed, remember if your mentor bhaiya/didi did it, you'll do it too.

We're excited to be part of your journey and can't wait to see you reach your IIT JEE goals. Let's work together to make this experience both successful and rewarding!

**Trust the process, and you'll soon be juniors of your mentors in IITs and NITs ✨**

**Best wishes,  
The Prepsaarathi Team**
